

Peter Angelos, MD, PhD

**Linda Kohler Anderson Professorship of Surgery
Professor of Medicine Chief, Endocrine Surgery
Associate Director, MacLean Center for Clinical Medical Ethics**

Peter Angelos, MD, PhD, is a highly regarded surgeon who has extensive experience in surgery of the [thyroid](#), [parathyroid](#) and adrenal glands. He is also an expert in treating [endocrine cancers](#), including thyroid, parathyroid and adrenocortical cancers, as well as islet cell tumors of the pancreas.

Dr. Angelos has a special interest in minimally invasive endocrine surgery, a type of surgery that is performed through small incisions. Minimally invasive surgery has many benefits for patients -- from less scarring and pain, to a shorter hospital stay and a quicker recovery.

An accomplished author, Dr. Angelos has published many journal articles and book chapters on his research into improving outcomes of [thyroid and parathyroid surgery](#), minimally invasive endocrine surgery and best practices for [thyroid cancer](#) treatment.

Dr. Angelos is a recognized expert in medical ethics, and serves as associate director of the [University of Chicago MacLean Center for Clinical Medical Ethics](#). He has written widely on ethical issues in surgical practice and how to best teach medical ethics to surgical residents.

He is past president of the American Association of Endocrine Surgeons.
